

Parking and Directions to ILH Employee Health

As you approach the hospital on from Riverside Parkway, take the second rightentrance on to the campus. (If coming from the east and directed to exit at Janelia Farm Blvd, it would still be the second entrance, as there are three). As you drive into the parking lot, take the first left as if you were going behind the hospital. As you proceed, you will see the Birthing Inn (Purple awning) in the distant right hand side of the parking lot and across from it a Green Awning that reads, "**Physicians Offices, South Lobby 44055**", this is the South Entrance, the closest entrance for Employee Health and the Human Resource Offices.

After entering the South Entrance turn right, go all the way to the end of the hall.

Turn left and proceed toward Suite 111 on the left. We are under construction, so there are many security guards stationed in the area to assist with parking directions.
